

# Quarterly Crime and Disorder Benchmarking Report (Rolling Calendar Quarter)

This report provides an overview of the different types of police recorded crime in Elmbridge taken from the Police recorded crime survey. Data in this report is updated each **calendar** quarter (Q1 January-March, Q2 April-June, Q3 July-September and Q4 October-December).

Police recorded crime figures cover selected offences that have been reported to and recorded by the police. Data covered in this report is based on a 12 month period, collected as calendar quarter. Police recorded crime figures are based on the year in which the crime was recorded not the year in which it was committed.

There are known issues with police recorded crime data resulting in a degree of undercounting across crime types and police forces, therefore, this report doesn't provide a full picture of crime in an area. Users wishing to explore crime levels in their area should also use the Crime survey for England and Wales (CSEW; previously known as the British Crime survey) which is a face to face victimisation survey in which residents of households in England and Wales are asked about their experiences of a selected number of offences in the 12 months prior to the interview.
